## COMMUNITY REINVESTMENT ACT NOTICE

Under the federal Community Reinvestment Act (CRA), the Federal Deposit Insurance Corporation (FDIC) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The FDIC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the FDIC; and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each quarter, the FDIC publishes a nationwide list of the banks that are scheduled for CRA examination in that quarter. This list is available from the Regional Director, Federal Deposit Insurance Corporation, Division of Depositor and Consumer Protection, 300 South Riverside Plaza, Suite 1700, Chicago, Illinois 60606. You may send written comments about our performance in helping to meet community credit needs to our Compliance department at 2077 Miner Street, Des Plaines, Illinois 60016 and FDIC Regional Director. You may also submit comments electronically through the FDIC's website at [www.fdic.gov/regulations/cra](http://www.fdic.gov/regulations/cra). Your letter, together with any response by us, will be considered by the FDIC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the FDIC Regional Director. You may also request from the FDIC Regional Director an announcement of our applications covered by the CRA filed with the FDIC. We are an affiliate of Millennium Bancorp, Inc., a bank holding company. You may request from the Officer in Charge of Supervision, Federal Reserve Bank of Chicago 230 South LaSalle Street, Chicago, Illinois 60604, an announcement of applications covered by the CRA filled by bank holding companies.

## STATE OF ILLINOIS COMMUNITY REINVESTMENT NOTICE

## INSTITUTION RATING

**INSTITUTION'S CRA RATING:** This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

Millennium Bank's (Millennium) Community Reinvestment Act (CRA) performance under the Lending Test supports the overall rating. The following points summarize the bank's performance.

- The loan-to-deposit (LTD) ratio is reasonable given the institution's size, financial condition, and AA credit needs.
- A majority of loans are in the institution's AA.
- The geographic distribution of loans reflects reasonable dispersion throughout the AA.
- The distribution borrowers reflects, given the demographics of the AA, reasonable penetration among businesses of different sizes.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the rating.

## DESCRIPTION OF INSTITUTION

Millennium is a state -chartered commercial bank located in Des Plaines, Illinois. The institution is a minority owned depository institution, and is a subsidiary of Millennium Bancorp, Inc. (MBI), a one-bank holding company. Millennium was assigned a "Satisfactory" rating at its previous FDIC performance evaluation dated August 8, 2016, based on the Interagency Small Institution Examination Procedures.

Millennium operates one full-service office located in Des Plaines, Illinois. No branches have opened or closed since the previous examination. The bank offers a variety of loan products tailored to its target market, minority small business owners. Millennium is primarily a commercial lender with loan products that include commercial real estate, working capital, and equipment financing. The bank also offers commercial loans through the Small Business Administration (SBA) under the 504 and 7(a) lending programs. Most recently, the bank originated loans under the Paycheck Protection Program (PPP) guaranteed by the SBA, which was created in response to the Coronavirus Disease 2019 (COVID-19) pandemic in order to support small businesses. Since the previous examination, the bank no longer offers home mortgage lending.

Millennium provides a number of deposit services including checking, savings, and money market deposit accounts, and certificates of deposit. Alternative banking services include internet and mobile banking, electronic bill pay, remote deposit, and an automated teller machine (ATM) at the bank location.

In April 2022, the bank’s holding company, MBI, was one of three mission-driven financial institutions in the state of Illinois to receive Emergency Capital Investment Program (ECIP) direct investment funds; MBI was awarded \$40.9 million in ECIP investment funds. ECIP investment funds are designed to support the efforts of Minority Depository Institutions and Community Development Financial Institutions to provide loans, grants, and forbearance for small and minority-owned businesses and consumers, especially in low-income and financially underserved communities that struggled the most during the COVID-19 crisis.

Additionally, the Federal Home Loan Bank (FHLB) provided its member institutions with various grant opportunities to provide funds to community organizations. Millennium participated in the FHLB COVID-19 Relief Grant Program and received \$20,000 of grant funds that was provided to six organizations.

According to the June 30, 2022, Consolidated Reports of Condition and Income (Call Report), Millennium reported total assets of \$324.1 million, net loans of \$196.0 million, and total deposits of \$254.4 million, yielding a net loan-to-deposit ratio of 77.0 percent and a net loan-to-asset ratio of 60.5 percent.

Millennium experienced significant growth in both assets and net loans since the previous CRA evaluation; total assets increased \$248.9 million, or 309.8 percent. Net loans increased \$130.6 million, or 199.72 percent. Significant loan growth by dollar volume has been in construction and land development (C&D) loans, commercial real estate (CRE) and commercial and industrial lending. From June 30, 2016 to June 30, 2022, C&D loans increased \$21.1 million (1,437.2 percent), CRE loans increased \$97.0 million (349.4 percent) and commercial and industrial lending increased \$15.8 million (364.9 percent), largely attributed to the bank’s growth in total assets.

The bank’s loan portfolio as of June 30, 2022, is primarily diversified between CRE, C&D, and commercial and industrial loans (representing 83.9 percent), with the majority of the portfolio composed of loans secured by real estate. The following table provides detailed information about Millennium’s loan portfolio.

## DESCRIPTION OF ASSESSMENT AREA

The CRA requires each financial institution to define one or more AAs within which its CRA performance will be evaluated. Millennium’s AA contains three counties: two counties (Cook and DuPage) in the Chicago-Naperville-Evanston Metropolitan Division (MD) and one county (Lake) in the Lake County-Kenosha County, IL-WI MD. The AA is consistent with the requirements of the CRA, as it is comprised of whole geographies; does not arbitrarily exclude any low- or moderate-income geographies; and includes the census tracts (CTs) in which the bank operates its main office and deposit-taking ATM. The following sections discuss demographic and economic information for the AA.

### **Economic and Demographic Data**

The AA includes 1,689 CTs. Based on 2015 American Community Survey (ACS) data, the CTs reflect the following income designations: 265 low-income tracts (15.7 percent), 421 moderate-income tracts (24.9 percent), 443 middle-income tracts (26.2 percent), 544 upper-income tracts (32.2 percent), and 16 tracts (0.9 percent) where income data was not available. The following table outlines select demographic information about the AA.

Service industries represent the largest portion of businesses at 37.2 percent; followed by finance, insurance and real estate (10.6 percent); retail trade (10.4 percent); and construction (5.2 percent). In addition, 58.2 percent of businesses have four or fewer employees, and 90.9 percent operate from a single location. The above table indicates only 5.3 percent of the businesses are located in low-

income geographies, and 16.4 percent are located in moderate-income geographies. The analysis under the Geographic Distribution criterion compares the distribution of small business loans by geography to the percentage of businesses located in each geography. This data highlights some of the challenges financial institutions may face in originating small business loans in these geographies.

Unemployment rates in the AA decreased during the beginning of the review period, suggesting an improving economy. However, the sharp increase in the 2020 average unemployment figures for the AA, state of Illinois, and the U.S. was due to the COVID-19 pandemic and the mandatory stay-at-home order for all non-essential workers beginning in March 2020. The stay-at-home orders and temporary closures of non-essential businesses caused significant hardships for both individuals and businesses. The following table illustrates unemployment rates according to the Bureau of Labor and Statistics of the AA, the state of Illinois, and the U.S. for the most recent years of the review period.

**Competition**

The AA reflects a highly competitive market for deposits and loans. According to the FDIC Deposit Market Share data as of June 30, 2022 there were 114 financial institutions operating 1,814 offices within the AA. Of these, Millennium ranked 72<sup>nd</sup> maintaining 0.05 percent of the deposit market share. Large, national financial institutions operating offices within the AA hold the majority of the market share. While the top five financial institutions controlling 63.5 percent of deposits, 100 institutions hold less than 1 percent of the market share.

Competition for small business loans is also highly competitive. Millennium is not required to report CRA data and is not included in the following numbers; however, they serve as an indicator of competition and demand for small business lending in the AA. In 2020, the most recent data available, 329 lenders subject to CRA reporting requirements originated 216,698 small business loans totaling \$13.1 billion. The top five lenders accounted for 49.7 percent of the market share by number.

**Community Contact(s)**

As part of the evaluation process, examiners contact third parties active within the AA to assist in identifying credit needs and opportunities within the AA. This information helps assess whether local financial institutions are responsive to those needs. For this evaluation, examiners utilized two previously conducted community contacts with representatives from small business and community

development agencies operating within the bank's AA. Contacts indicated significant needs in the AA for financing smaller multi-family construction projects, funding loan pools, and community development infrastructure. Overall, the contacts indicated that certain banks in the AA work harder and more aggressively than other financial institutions in meeting the credit needs of the area.

### **Credit Needs**

Considering information obtained from the community contacts and demographic data, examiners determined that opportunities exist within the AA for financing smaller, multi-family construction projects and funding loan pools.

## **SCOPE OF EVALUATION**

### **General Information**

Examiners used the Interagency Small Institution Examination Procedures to evaluate the CRA performance. This evaluation covers the period from the previous evaluation dated August 8, 2016 to the current evaluation dated October 19, 2022. These procedures focus on the bank's performance under the Lending Test as outlined in the Small Bank Performance Criteria Appendix.

### **Activities Reviewed**

Examiners determined Millennium's major product line is small business loans. This conclusion considered the bank's business strategy and the number and dollar volume of loans originated during the evaluation period. No other loan types, such as small farm, home mortgage, or consumer loans represent a major product line or provide material support for conclusions or the rating.

Millennium originated, renewed, or purchased 747 small business loans totaling \$52.5 million in 2021, which included 653 PPP loans totaling \$26.1 million. Examiners reviewed a statistically valid sample of 63 small business loans totaling \$4.5 million to evaluate the small business lending. Management agreed that this timeframe was representative of lending activities throughout the evaluation period. The 2021 D&B data provided a standard of comparison for the bank's small business performance.

While examiners considered both the number and dollar volume of loans, discussion of performance is limited to loans by number, as performance by dollar volume led to similar conclusions. Furthermore, the performance by number of loans is a better indicator of the number of businesses served.

## **CONCLUSIONS ON PERFORMANCE CRITERIA**

### **LENDING TEST**

Millennium demonstrated reasonable performance under the lending test. Reasonable performance under the LTD Ratio, AA Concentration, Geographic Distribution, and Borrower Profile supports this conclusion.

## Loan-to-Deposit Ratio

The net LTD ratio is reasonable given the institution's size, financial condition, and AA credit needs. As shown in the following table, the bank maintained an average LTD ratio of 92.7 percent over the previous 24 quarters, from September 30, 2016 through June 30, 2022. Examiners compared the bank's average LTD ratio to five similarly situated institutions that operate within the AA and have similar loan concentrations. The average LTD ratios of these institutions ranged from 53.6 percent to 111.6 percent. Millennium's average LTD ratio is comparable with the similarly situated institutions.

## Assessment Area Concentration

Millennium originated a majority of small business loans within its AA. The following table provides details on the number and dollar amount of loans inside and outside the AA.

## Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the AA considering the demographics, lending opportunities, and locations of the institution. The bank's reasonable small business performance supports this conclusion. Examiners focused on lending penetrations in low- and moderate-income CTs. Only loans originated in the AA were considered in the analysis.

**Small Business Loans**

The geographic distribution of sampled small business loans reflects reasonable dispersion throughout the AA. Examiners compared the percentage of small business loans to the relative percentage of businesses by census tract income level (demographic data) as shown in the following table.

| <b>Geographic Distribution of Small Business Loans</b>   |                        |           |              |                 |              |

The bank’s lending in low-income CTs is comparable with the demographic. It should be noted that the closest concentration of low-income CTs from the bank’s locations is over 10 miles away, and the bank faces a high level of competition in this large geographical area. Furthermore, the demographic data includes all businesses in the AA and not necessarily those that are seeking financing or qualify.

The bank’s performance in moderate-income CTs is in line with the comparable demographic.

Considering the bank’s performance is comparable to demographic data, the proximity of low-income CTs to the bank’s location, and the level of competition for small business loans, the loan distribution reflects reasonable performance and a willingness to make small business loans in low- and moderate-income CTs.

**Borrower Profile**

The bank’s distribution of borrowers reflects reasonable penetration, and is supported by the bank’s small business lending performance. Only loans originated in the AA were considered in the analyses. Examiners focused on the percentage of small business loans to operations with gross annual revenues (GAR) of \$1 million or less.

**Small Business Loans**

The distribution of loans to borrowers reflects reasonable penetration among businesses of different sizes. Performance is measured against the percentage of businesses with GAR of \$1 million or less (demographic). The following table details the distribution of small business loans by GAR of the business in the AA.

| Distribution of Small Business Loans by Gross Annual Revenue Category  |                 |           |              |              |              |

PPP loans comprised a significant portion of 2021 small business loans, with 47.1 percent without revenue information. Reported revenue was not available for most PPP loans given the program requirements. Therefore, examiners could not conduct a meaningful analysis of lending to businesses of different sizes for 2021. Instead, examiners evaluated PPP loans using loan size as a proxy for those with revenues not available. A majority of PPP loans, by number, had loan sizes of \$100,000 or less, indicating that the bank is helping to serve the needs of small businesses in the AA. Examiners also noted that a majority of loans with available revenue information were made to businesses with GARs of \$1 million or less. The following table shows the loan size of PPP loans sampled in 2021.

| Distribution of PPP Loans by Loan Size   |           |              |                |              |

**Response to Complaints**

Millennium did not receive any CRA-related complaints since the prior evaluation; therefore, this criterion did not affect the Lending Test.

## **DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW**

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's CRA rating.

## APPENDICES

### SMALL BANK PERFORMANCE CRITERIA

#### **Lending Test**

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

## GLOSSARY

**Aggregate Lending:** The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**American Community Survey (ACS):** A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

**Area Median Income:** The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

**Assessment Area:** A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

**Census Tract:** A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

**Combined Statistical Area (CSA):** A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

**Consumer Loan(s):** A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

**Core Based Statistical Area (CBSA):** The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

**Family:** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

**FFIEC-Estimated Income Data:** The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

**Full-Scope Review:** A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

**Geography:** A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

**Home Mortgage Disclosure Act (HMDA):** The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

**Home Mortgage Loans:** Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

**Housing Unit:** Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

**Limited-Scope Review:** A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

**Low-Income:** Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

**Market Share:** The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**Median Income:** The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

**Metropolitan Division (MD):** A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary

counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

**Metropolitan Statistical Area (MSA):** CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

**Middle-Income:** Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

**Moderate-Income:** Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

**Multi-family:** Refers to a residential structure that contains five or more units.

**Nonmetropolitan Area (also known as non-MSA):** All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

**Owner-Occupied Units:** Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

**Rated Area:** A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

**Rural Area:** Territories, populations, and housing units that are not classified as urban.

**Small Business Loan:** A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

**Small Farm Loan:** A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

**Upper-Income:** Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

**Urban Area:** All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

**Additional Terms for Interest Bearing Accounts** (Does not apply to Millennium Free Checking)

**Interest Method.** We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

**Interest Payment.** Interest will be compounded and credited to your account monthly on your statement date. Minimum balance must be maintained each day to obtain the disclosed annual percentage yield.

**Accrual of Interest on Noncash Deposits.** Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

**Effect of Closing Account.** If you close your account before interest is credited, you will not receive the accrued interest.

Interest Rates and Annual Percentage Yields (APY) are current as of 01/29/2024. Interest Rate and Annual Percentage yield may change at any time at the bank's discretion. For current rate information call (847) 296-9500.
